

# TouchNTuff® 92-500 92-600 92-605

Engangsbrug

Nitril

Stænk

## Gennemtestet bestandighed over for stænk fra farlige kemikalier

### BESKRIVELSE

- Yderligere test af TouchNTuff® af et certificeringsorgan omhandlende endnu flere kemikalier bekræfter, at de modstår et større udvalg af industrielle kemikalier i længere tid end nogen andre engangshandsker af nitril.
- TouchNTuff®, som er fremstillet af nitril, giver op til fire gange den punkteringsstyrke, der findes i sammenlignelige handsker af naturlatex, og tre gange styrken i lignende neoprenhandsker.
- Den indeholder ingen naturgummi proteiner, hvilket vil sige, at brugeren ikke udsættes for risiko for Type I-allergier. Undersøgelser af primær hudirritation og irritationslappeprøver har desuden ikke påvist nogen beviselig risiko for irritation eller allergisk kontaktdermatitis.
- Med en enestående formel til "Thin Nitrile Technology" er denne handske nem at tage på og har et stærkt greb både under våde og tørre forhold.
- Handsken er yderst alsidig og er velegnet til mange anvendelser.
